Studies

Computer Engineering (D.M. 509/99) at University Federico II of Naples

Faculty (in progress)

09/2007 - present

The course of study has refined the ability to plan, design, implementation and management of systems for information management.

Tools and Languages explored: Microwind, Java, Matlab, XML.

Also been developed for the following:

- Design and development of a multi-site (XML, XQuery, XSL and CSS).
- Analysis and implementation of a multichannel convergent software web (XHTML, XML, XQuery, CSS and use of SIP, RTP).
- Study on software quality standards available, metrics and modeling study of a case study.

Computer Engineering (D.M. 509/99) at University Federico II of Naples

Faculty (finished)

09/2002 - 09/2007

The course of study has developed the capacity to carry out planning, design, implementation, management and operation of systems and infrastructure for the representation, transmission and processing of information.

Extensive tools and languages: Java, C + +, Matlab, Oracle DBMS.

Also been developed for the following:

- Implementation of a software for the booking of cinema tickets and services on national territory (Asp interface with Oracle DBMS).
- Analysis, design and development of software for management and booking services offered by a beauty farm (Java interface with DBMS Access).

The thesis developed at the end of the training held at the Department of Computer Science and Systems (DIS), University of Naples Federico II, entitled "Design and implementation of an automated tool for the evaluation and comparison of security policies computer systems.

Graduated with vote 107/110.

Scientific at Scientific lyceum A.Labriola of Napoli.

Highschool

09/1997 - 07/2002

Experimental studies with address information based on the learning elements and fundamentals of computer programming applied to language TurboPascal.

Graduated with vote 88/100.

Experience

Teacher at Association "Solaris MDM" located in Via Luigi Mercantini, 10 - 80125 Naples

Education Management, employees

10/2007 - 05/2008

Languages

First language: **Italian**

Other languages: **English**

Skills

The course of study in Computer Engineering has fostered the development of the ability to work collaboratively with the implementation of several group projects. The I.G. Students (Youth Entrepreneurship) experience undertaken during their studies in high school, with the role of CEO of the company has also developed an excellent ability to work in a team.

Excellent knowledge of Windows operating system and Microsoft Office.

Good knowledge of Linux based operating systems.

Studies have also allowed the knowledge of the following languages and tools:

Java, C++, Matlab, Oracle DBMS.

Good skills in creating websites and graphic design (Photoshop).

Creating and managing Web sites: <http://www.jamitaly.com>,

<http://www.veladinamicacaserta.com>, <http://www.joshuasail.it/> developed using the WordPress CMS and platform phpBB.

Good knowledge in SEO (Search Engine Optimization).

Excellent skills in both technical and artistic drawing and writing.

A written composition was published in the yearbook 1971-2001 "Temporis Acti Libellum" of the A. Labriola Institute of Naples.

Driver licence

- Car license (B) obtained on 12/04/2003

- Sailing and motor boat license without limits obtained on 5/05/2008
